

## Delivering successful outcomes

Agile, flexible IT services

### Press Release –IT Consultancy CEO of the Year UK Award 2015

We are delighted to announce Inspire’s CEO, Neil Parker has won IT Consultancy CEO of the Year 2015.

Neil Parker commented, “I am rarely humbled, but to receive the award for ‘IT Consultancy CEO of the Year’ [2015] has actually really humbled me. We have spent 7 years focussed on building Inspire into an independent IT Consultancy, supported by a specialist Recruitment Division, and the recognition makes it all worthwhile. We have fantastic, supportive Global clients in the IT Outsourcing, Digital, IT and Retail sectors all of whom have invested heavily in terms of trust in our capability to help design and build their IT infrastructures, transform their Digital environments, and provide long term headcount solutions. We must also look to the IT experts in our trusted network [Team Inspire] who do the real work, and thank them for building our business.”

#### About The Awards

The 2015 Corporate Vision Executive Awards pay tribute to the shining stars of the executive world who form not just the backbone of their individual firms, but of their wider sectors and industries.

Creativity, innovation and passion for the product or service are the things that separate great companies from merely good ones and these awards celebrate the individuals who, through their commitment to these areas, are the driving force behind their firms’ growth and prosperity.

Our dedicated awards team undertake a huge amount of rigorous research, leaving no stone unturned to ensure that these awards are allocated only to the professionals that truly deserve them. The awards are based 100% on merit and are a reflection of those executives currently making an impact in their firms and industries.
